

## Visual studio code working screenshots:

The image shows two screenshots of the Visual Studio Code interface, demonstrating the development of a personal website.

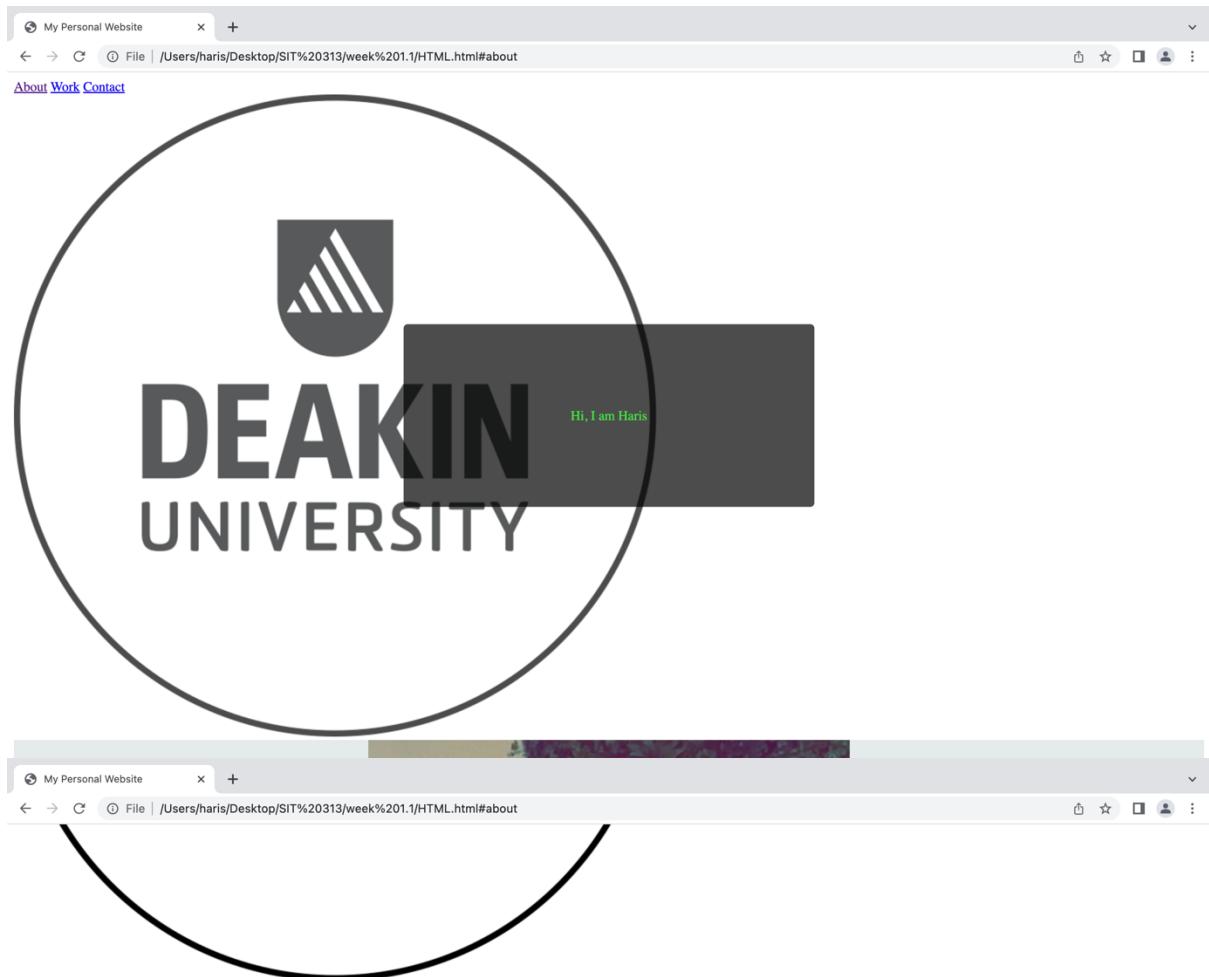

**Top Screenshot (HTML File):**

- Explorer View:** Shows the project structure with files: .vscode, HTML.html, CSS.css, WEEK 1.1, and various image files (deakin1.jpeg, deakin2.jpeg, etc.).
- Editor View:** Displays the HTML code for the website. The code includes a header with a logo and text, a main image, and two paragraphs of text. A table is also present with a single row and two columns, containing an image and the text "Creative Technologies".
- Bottom Status Bar:** Shows the code is at line 46, column 8, with 2 spaces, in UTF-8 encoding, and includes icons for HTML, CSS, Go Live, and Prettier.

**Bottom Screenshot (CSS File):**

- Explorer View:** Shows the project structure with files: .vscode, HTML.html, CSS.css, WEEK 1.1, and various image files.
- Editor View:** Displays the CSS code for the website. It defines styles for h1, h3, h5, p, div, and .my-image elements. The .my-image class is set to display: block; margin: auto; width: 500px; height: 500px;.
- Bottom Status Bar:** Shows the code is at line 46, column 1, with 4 spaces, in UTF-8 encoding, and includes icons for CSS, Go Live, and Prettier.

## Website screen shots:

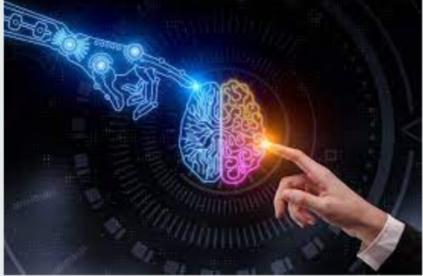

Hi, I am a full-stack Web Developer based in Melbourne

My Personal Website
